SMALL BUSINESS ◆

**MISSION:** Delivering AI-driven solutions that accelerate government modernization, reduce costs, and strengthen mission outcomes.

### CORE AI COMPETENCIES & CAPABILITIES

#### AI Infrastructure & GPU Servers

Dell PowerEdge R7715 GPU-accelerated servers. 7:1 consolidation, 64% lower 5-year TCO. Hyperconverged infrastructure and datacenter modernization.

#### Managed AlaaS Operations

Fully managed AI infrastructure — provisioning, monitoring, MLOps, and model operations. Service tiers with government-grade SLAs and 24/7 NOC.

#### Agentic AI Workflow Automation

AI-augmented software engineering and agentic automation. Eliminate manual processes and accelerate agency decision cycles at scale.

#### Business Continuity & Resilience

Everbridge-powered critical event management, mass notification, and operational resilience for any government disruption scenario.

#### Strategic Planning & PMO

AI modernization roadmaps, FITARA and OMB-aligned strategies, and program management for complex multi-phase government transformation.

#### Large Format AI Printing

Enterprise AI-enabled large-format printers and plotters for agencies with high-volume mapping, engineering document, and GIS needs.
